

C5/4ENP(T+4S)-2 (E.107-A)**Product summary:**

SAT+TERR quadruple combiner

Brief description:

5in/4out TERR and SAT quadruple combiner designed for adding terrestrial signals to all outputs of Quad LNB (Monoblock Quad LNB).

Satellite inputs transmit DC voltage, 22 kHz and DiSEqC commands from respective outputs. Terrestrial input is DC isolated.

**Technical data:**

Parameter	Condition	Value
Frequency range	Sat. inputs	950-2150 MHz
	Terr. input	5-862 MHz,
Insertion loss	Sat.	2 dB avg
	Terr.	9 dB avg
Isolation between sat. inputs		30 dB min
Dimensions (w,d,h)		10.6 x 7.1 x 3.1 cm
Temperature range		-25 ~ +60 °C
Weight		0.200 kg
