

## Product summary:

DiSEqC 2.0 LNB switch

## Brief description:

4in/1out DiSEqC 2.0 switch for up to 4 satellite positions and 1 subscriber. It is designed for switching between 3 or 4 LNBs, which are addressed in receiver's menu as DiSEqC 1.0 setting A/B/C/D.

## Technical data:

| Parameter             | Condition       | Value   |
|-----------------------|-----------------|---|
| Frequency range       | Sat. inputs     | 950-2150 MHz                                    |
|                       | Output          | 950-2150 MHz,                                   |
| Control               |                 | DiSEqC 1.0 (2.0) commands "Position" & "Option" |
| Insertion loss        | Sat.            | 4 dB avg  |
| Sat. inputs isolation |                 | 30 dB min                                       |
| Power consumption     | From receiver   | 35 mA (18 V) + LNB                              |
|                       | DC current pass | 400 mA max                                      |
| Dimensions (w,d,h)    |                 | 10.6 x 6.4 x 3.1 cm                             |
| Temperature range     |                 | -25 ~ +60 °C                                    |
| Weight                |                 | 0.150 kg  |
