

B5/0PEP-3 (P.123-A)**Product summary:**

Quadruple DC inserters & impedance terminators built into one unit

Brief description:

5in/0out DC inserter & impedance terminator. Input voltage from DC2.1 socket is passed to 4 satellite inputs. All inputs (including terrestrial) are terminated by 75 Ohm.

The device is suitable to be connected at the end of a cascade system.

**Technical data:**

| Parameter | Condition | Value |
|--------------------|-------------|----------------------|
| Frequency range | Sat. inputs | 950-2300 MHz |
| | Terr. input | 5-862 MHz, |
| Load impedance | | 75 Ohm |
| DC power | | 24 V max |
| Dimensions (w,d,h) | | 12.7 x 10.4 x 4.1 cm |
| Temperature range | | -30 ~ +70 °C |
| Weight | | 0.220 kg |
